EDUCATION

JSS Science and Technology University, Mysore

Bachelor of Engineering in Computer Science

Oct 2023 – Present

CGPA: 9.12/10

SKILLS

Languages	Python, C/C++, SQL
Frameworks	Django, Django REST Framework, FastAPI, Pydantic
Databases	PostgreSQL, SQLite
Tools	Git/GitHub, Postman, Docker, VS Code, Vim, Linux/WSL, Heroku, Ollama

PROJECTS

HealthScan – Document Management & OCR Platform for PHCs

May 2025

Developed the complete back-end for a full-stack document management system with OCR support tailored to Primary Health Centers (PHCs), using FastAPI. Focused on secure functionality and back-end infrastructure.

Implemented fast document OCR processing, QR code-based document retrieval, and Two-Factor Authentication (2FA). Deployed back-end and PostgreSQL database on Heroku with mobile/web access support.

GitHub: github.com/dynamite-123/HealthScan

BrightMind – AI Multilingual Learning Platform

April 2025

Developed and deployed the backend of an education platform that enables rural learners with content and quizzes generated by AI and in multiple languages.

Implemented AI-based content generation, chat agents that solve doubts and offline PDF support using the Django REST Framework, PostgreSQL, and PydanticAI. Integrated with React Native and web clients.

GitHub: github.com/dynamite-123/BrightMind

Raytracing in C

March 2025

Built a basic raytracer in C using the SDL library to render simple 3D scenes with lighting and shadows. Focused on implementing core graphics principles from scratch.

GitHub: github.com/dynamite-123/Raytracing

EXPERIENCE

Technical Coordinator – Linux Campus Club (LCC), JSSSTU

Aug 2025 – Present

Organized and hosted workshops and competitions focused on Data Structures and Algorithms (DSA). Actively involved in mentoring peers, designing problem statements, and fostering a coding culture on campus.

Technical Coordinator – Persona+ Club, JSSSTU

April 2025 – Present

Manage and maintain the official website of a campus club focused on soft skills. Developed and updated web features to highlight events, team members, and initiatives. Contributed to the club's digital outreach and event promotions.

ACHIEVEMENTS

- Performed well in hackathons: Top 10 Nationwide in AgentHack 2025 by UiPath, Advanced to Round 2 in Adobe Hiring Challenge, and consistently secured top positions in multiple college-level hackathons.
- Selected as Junior Academy Member (2018–2023) – New York Academy of Sciences (NYAS); collaborated on global STEM challenges including telemedicine-based diagnostic solutions.
